PRUEBA DE ACCESO A LAS ENSEÑANZAS UNIVERSITARIAS

Curso 2014-2015- JUNIO B

MATERIA: INGLÉS

1.- Are the following statements TRUE or FALSE? Copy the evidence from the text. No marks are given for only TRUE or FALSE.

a) Genetic fingerprinting was the intended result of thorough research

According to the text, this statement is **FALSE**: "He suddenly realized that he had, completely by accident, discover..."Genetic Fingerprinting".

b) British institutions didn't take long to realize the relevance of the new discovery

According to the text, this statement is **TRUE**: "The importance of the discovery was recognized immediately by both the UK police and immigration authorities".

2.- In your own words and based on the ideas in the text, answer the following questions. Do not copy from the text.

a) How does genetic fingerprinting help the police in their work?

There are many manners genetic fingerprints help the police. For example, they can be used in forensic investigation to resolve problems of identification; that way some convicts can prove their innocence and the authorities can also arrest the real robbers or killers.

b) What are the possible consequences of the incorrect use of the new discovery?

Some people are afraid thinking of the negative consequences this advance can involve if it is incorrectly used. They believe it could not respect the individual liberties or rights, because it may collect a lot of genetic information such as race or health problems and make it available to many people who could have immoral purposes.

3.- Find the words in the text that mean:
